**Henry County School Nutrition Programs**  
**Request for Proposals #16-04273-A168**  
**Provision of Cafeteria Food Items to School Division**

Henry County is located in south/central Virginia, surrounding the city of Martinsville. The district has an enrollment of 7,426 students, and serves an average of 5700 lunch meals and 4310 breakfast meals per day. We have been expanding our CACFP (At-Risk Supper Program) and plan to continue expanding in SY 2016-2017. Our cafeterias work from a five-week cycle menu, written for elementary, middle and high school level meal pattern requirements. We are seeking proposals for the provision of cafeteria food, as described in the attached specifications, to our fifteen locations: ten elementary, two middle, two high schools and one alternative education location that also does catering and the supper program for other locations. Weekly deliveries unloaded into the kitchen/storage areas of the attached list of schools will be expected, preferred delivery days of the week are Wednesday through Friday due to limited cold storage space. We also run an active Summer Food Service Program, with three production kitchens open during June and July that will need weekly deliveries. Last summer the three kitchens provided over 17,000 breakfasts, 30,200 lunches, 6400 suppers and 1525 snacks. This is more than what three of our kitchens average during the school year.

The smallest elementary schools (3) average \$450-\$800 per delivery, mid-size elementary schools (3) average \$750-\$1000, large elementary schools (4) average \$850-1100, middle schools (2) average \$2000-\$3400, and high schools (2) average \$2500-\$4000 per delivery. CCL/Figsboro may only order every other week and averages \$350-\$500, depending on catering. Vendors must be able to provide routing so that all deliveries will take place within a 6:30 am to 2:00 pm delivery window. Deliveries to elementary schools must be completed by 2:00 pm, so that delivery trucks do not impede traffic at the end of the school day. All schools do not have to be delivered on the same day of the week, but we are asking that the delivery schedule be set up so that all schools have a delivery day of either Wednesday, Thursday, or Friday as their “set” day of the week, with the exception of weeks with school holidays.

The individual schools send their weekly orders to the Central Nutrition Office where they are keyed into a master order guide/spreadsheet for editing and approval. Approved orders will then be sent to the awarded vendor via e-mail or entered into the vendor’s automated order system. Weekly orders will be submitted to vendor at least two days in advance of the first weekly delivery day. The Central Nutrition Office must be given an inside sales contact who can adjust orders as needed until noon on the day before orders will be delivered.

The School Nutrition Central Office expects to be notified of shortages the day prior to delivery and told when the item will become available or given options for substitution. Substitutions are expected to be of equal or greater quality than the bid list item and cannot exceed the bid list price.

The school district reserves the right to cancel the entire contract and/or to buy on the open market at the current price and charge the company the difference between the price paid and the contracted price in the event any item is not delivered according to specifications, the brand of merchandise is different without prior approval, or orders are not delivered within the specified period. The school district reserves the right to refuse

any and all substitutions and to require the vendor to return on a non-delivery day to fill out-of-stock items that arrive at the vendor's warehouse in time to meet the school district's menu needs.

The awarded vendor must be able to provide delivery drivers who meet the requirements of the Henry County Food Defense Plan. Awarded vendor must also be able to certify that their establishment meets the requirements of the Food Defense Plan for vendors. (See attached). Drivers will be expected to show photo I.D. the first time that they are "checked in" at any school. Drivers will be expected to sign-in on arrival at each school for every delivery. Deliveries will be checked against the original order and the invoice at the time of delivery. Schools are to receive two copies of the delivery invoice on delivery, with any discrepancies to the delivery noted by the driver (shorts, refused substitutions, etc.) Signed invoices with no notations or attachments are considered "complete" as printed, so we expect our staff to do a complete job when checking in trucks and they are not to be rushed by the driver. Drivers can assist in this process by ensuring that box labels are turned so that they will be accessible to the person checking in the truck. The premises of the vendor must be inspected at least once annually by the local Health Department.

The awarded vendor must be able to provide the School Nutrition Office with item velocity reports on a monthly basis for the tracking of rebates for commodity usage and other programs. The office will provide a list of items that need to be tracked. The School Nutrition Office must be provided with a monthly statement of all invoices, complete with customer numbers or school names, date of delivery/invoice and amount owed.

Interested companies should make their proposals based on meeting the above criteria and providing the items in the attached specifications. We will need the following in order to evaluate proposals:

1. Clear pricing of items specified with any difference in case pack, serving sizes, etc. from the original specification noted. Return on form provided, filled out electronically.
2. Any items with a "Preference" and noted brand name and code followed by the phrase "Equals" must have delivery of samples and nutritional information by April 1, 2016 and may only be bid if approved by April 15, 2016 through the Henry County School Nutrition office" must be bid noted brand name unless the vendor prepares a packet with the following:
  - a. Five servings of the proposed substitution, with nutritional specifications.
  - b. If the specified product has a CN Label, a copy of CN label for the proposed.
  - c. Indicate on the **outside of the package** the ID # the sample is for (Col. A).
  - d. Ship all proposed samples, which must arrive by April 1, 2016 to be considered for approval to: **Attn: School Nutrition Manager, Drewry Mason Elementary School, 45 Drewry Mason Drive, Ridgeway, VA 24148**. Do NOT ship samples to the Central School Nutrition Office; there is no freezer available at that location!
  - e. Provide contact information for approval/denial of submitted substitutions, (preferably an e-mail address). Approvals/denials will be completed by April 15, 2016.
3. Provide Henry County School Nutrition with a delivery and service proposal: what days of the week / beginning and ending schedule, etc. Comment on your company's usual handling of "out-of-stock" items, (percentage of orders filled, re-delivery, and substitutions).
4. Copy of the most recent Health Inspection Report.

5. One set of Nutritional information and a copy of either CN Label or Manufacturer's Statement of Meal Pattern Equivalents for each proposed protein and bread/grain item.
6. One copy of Nutritional information for all fruits, vegetables, condiments, snack items, etc.

Proposals will be evaluated on the following basis:

1. 25% - Tabulation of pricing on specified items. Items with different pack sizes will be equalized by portions or weight for tabulation purposes.
2. 15% - Completeness of proposal.
3. 10% - Health Inspection Report
4. 20% - Ability/willingness to source preferred brands, or research and provide equal or better nutritive quality in a higher overall quality product.
5. 20% - Service/delivery proposal
6. 10% - Location

Proposals must be delivered to the Henry County Purchasing office by 3:00 pm on Wednesday, April 27, 2016. Any proposals received after the deadline will not be accepted. Electronic submissions of the proposal will not be accepted as the full proposal package, this must be hard copy. Please be prepared to send an electronic copy of the completed specification worksheet after the proposals have been accepted and opened. The top 2-3 vendors will be notified by end of business day Friday, May 13, 2016 of their selection to appear before the evaluation committee for an interview. Interviews will be scheduled for May 17, 2016. The recommendation for award will go to the School Board at the June 2, 2016 Board Meeting. The awarded vendor will be notified of the Board's decision.
