

Henry County S.E.E.D.

The Strategic Economic Environmental Design (S.E.E.D.) program allows businesses and organizations to sponsor gardens that improve the appearance of the county's major traffic corridors and the overall quality of life for residents throughout Henry County.

Existing site conditions
US 220 Bypass Cloverleaf

Proposed site design

Want to sponsor a S.E.E.D. garden?

Benefits of S.E.E.D. Gardens

Beautifying the community by improving the aesthetics of major traffic corridors.

Improving water quality by retaining stormwater runoff and helping to keep harmful pollutants out of our water supply.

Encouraging economic development by making the community more inviting to visitors and encouraging investment from businesses.

Instilling community pride in residents by working hard to keep the community clean and beautiful, and thinking positively about the companies that sponsor the gardens!

Existing site conditions
US 220/River Road

Proposed site design

Beautifying Henry County's roadways and gateways
